

Hinkson Creek Trail

Length 4.25 miles, out and back

Hinkson Creek Trail is a scenic limestone trail that connects Grindstone Nature Area to the MKT Trail. No unauthorized motorized vehicles are allowed on the trail. The trail experiences moderate daily recreational and commuter use with increased traffic on weekends. From the Grindstone Nature Area, trail users can continue north from the Grindstone Nature Area on the Old Hwy. 63 pedway (6' wide) to Stephens Lake Park. This information does not include an assessment of the pedway.

Users/Activities

The Average Grade of the trail is 1.4%

The maximum grade on the trail is 13.1%

Trail Cross Slopes Between 0% — 2.0%

The Average Tread Width of the trail is 120"

The minimum tread width of the trail is 120" (select access points have 65" entry areas due to safety bollards)

The Trail Surface is predominantly crushed limestone.

100% of the trail is firm under normal conditions. Trail washout is common with heavy rain. A concrete portion of trail exists from mile marker .5 to .75.
